AMBITIONS AND PLAN AS AN ISCRAM BOARD MEMBER

My first objective is to develop ISCRAM-CHINA as much as possible, not only taking it as a conference, but also as an academic association. In this way I can call for more researchers and policy-makers to join in this field to collaborate. Of course ISCRAM-CHINA conference will still be the annually event and plan to be developed to cover ASIA.

My second objective is to take more research projects based on my Research Institute. Now I have a ten-person team. Everybody is very active at this field.

My third objective is to create a journal about ISCRAM in CHINA.
