

## ISCRAM 2008 Conference Dinner and Social Event at Mount Vernon Estate and Gardens

Mount Vernon was the plantation home of the first President of the United States, George Washington and his wife, Martha.

The ISCRAM 2008 Conference Social Event will bus conference participants one hour to the Mount Vernon Estate, where they will gather for a cocktail and hor d'oeuvres at the Mount Vernon Inn. The estate is located on the banks of the Potomac River and will make a beautiful site to relax and unwind.

George Washington was a drinking man and the estate holds a fine distillery that produces excellent whiskey and brews its own fine beer, "Old Dominion". Private tours of the Mount Vernon mansion for ISCRAM participants will leave from the

Mount Vernon Inn after the cocktail hour, and will provide our conference attendees with a look at life at Mount Vernon as it was during the American colonial era. We will return to the Mount Vernon Inn for a delicious 3-course dinner, after which ISCRAM participants will be dropped off at their hotels or the conference venue by the bus service.

We hope that many of you take advantage of this fantastic venue and spend an evening eating, drinking, and socializing with your ISCRAM colleagues and peers. <http://www.mountvernon.org/index.cfm/>
